Overview

Lint	
1	ObsoleteLintCustomCheck: Obsolete custom lint check

Usability	
1	GoogleAppIndexingWarning: Missing support for Firebase App Indexing

Disabled Checks (24)

DISMISS

Obsolete custom lint check

butterknife-8.8.1.aar/.../lint.jar (../../../../../../.gradle/caches/transforms-1/files-1.1/butterknife-8.8.1.aar/1c9acf037afeca020e60ae4afa86c2b2/jars/lint.jar): Lint found one or more custom checks that could not be loaded. The most likely reason for this is that it is using an older, incompatible or unsupported API in lint. Make sure these lint checks are updated to the new APIs. The issue registry class is butterknife.lint.LintRegistry. The class loading issue is com/android/tools/lint/detector/api/Detector$JavaPsiScanner: ClassLoader.defineClass1(ClassLoader.java:-2)←ClassLoader.defineClass(ClassLoader.java:763)

ObsoleteLintCustomCheck   Warning   Priority 10/10

EXPLAIN   **DISMISS**

Missing support for Firebase App Indexing

../../src/main/AndroidManifest.xml (../../src/main/AndroidManifest.xml):5: App is not indexable by Google Search; consider adding at least one Activity with an ACTION-VIEW intent filter. See issue explanation for more details.
